👤 Andrii

Results-oriented Web Developer committed to constructing and enhancing user-centric websites tailored to diverse business goals. Resourceful and innovative in developing effective websites, applications, and platforms to drive competitive advantages and foster revenue growth. Technically proficient and analytically minded problem solver with a composed and focused approach.

PROFESSIONAL EXPERIENCE

Front-end developer, *Freelance*

09/2020 - present

- Developed and maintained the user interface for a web application using React.
- Integrated with the back-end through REST APIs, ensuring data exchange between front-end and back-end. Optimized the site's performance, improving loading times and overall speed.
- Collaborated with designers to implement UI/UX designs and ensure their practical realization.
- Participated in daily stand-ups, code reviews, and architectural discussions.

Odesa, Ukraine

Front-end developer, *Internship, KeepSolid*

06/2020 - 08/2020

Developed landing pages, dashboards and online applications using Vue.js. Conceived and built optimized landing pages in HTML and CSS, including Vue.js integration and cross-browser compatibility, to support marketing. Reviewed code to validate structures, assess security and verify browser, device and operating system.
